LEVEL UP

LOGO PRESENTATION — V2

Audio & gaming store for Tunisia's gamer and music-lover community. One mark, two readings.

THE CONCEPT

One shape, read two ways

The mark is a single rounded triangle — a **play button rotated upward** — resting on a short launch-pad base. Gamers and music lovers both recognize the play shape instantly; turned on its side it reads as an **arrow going up** — the literal idea of "Level Up."

No earphone, no cable, no separate soundwave bars stitched together — just one continuous silhouette plus the wordmark. It holds up at app-icon size and works equally on dark or light backgrounds.

PRIMARY LOCKUPS

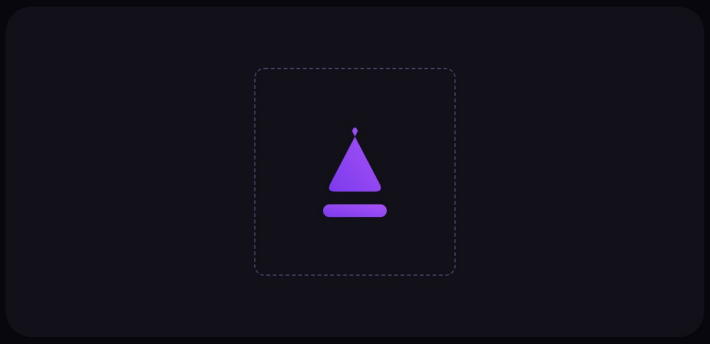

Dark version — website, Instagram, dark UI, packaging on black

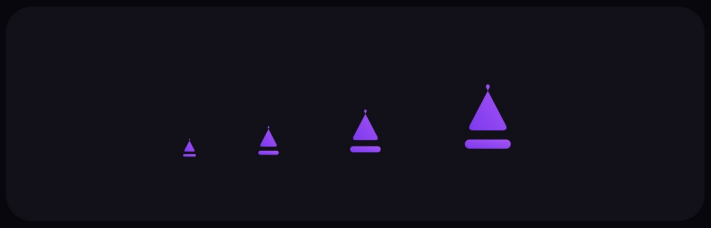

Light version — invoices, print, receipts, white packaging

CLEAR SPACE

Keep space around the mark equal to at least the height of the base bar. Never crowd it with text or photography inside that zone.

MINIMUM SIZE

Icon-only stays legible down to 20px — use it for favicons, app icons, and profile pictures. Below that, use a solid color block instead.

COLOR PALETTE

Core Black	Deep Violet	Electric Purple	Off White	Muted Lavender
#08070D	#7C3AED	#A855F7	#F3F0FC	#8D87A8

WORDMARK

LEVEL UP

Arial Bold (800), +6px tracking — locked to the icon, never reset to another typeface.

MARKETING TYPEFACES

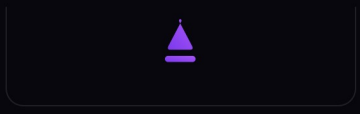

Bricolage Grotesque

Manrope — for headlines and body copy across the site, posts, and video captions.

USAGE

✓ Do

✗ Don't

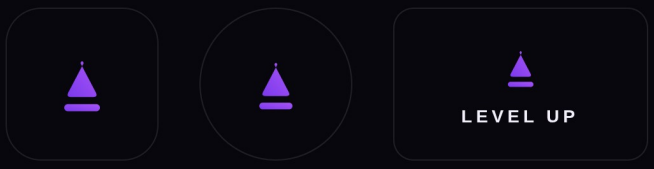

Use the matching version for the background. Keep full clear space.

Never stretch the mark or recolor it outside the brand palette.
